

What is Insights?

Overview

Insights is where Ursinus collaborates and shares knowledge — create, share and discuss your files, ideas, minutes, specs, mockups, diagrams, and projects.

Insights is powered by a product called **Confluence**

 To learn how to manage content within Insights, take a look at these Confluence pages and videos

Documentation

- [Understanding the Confluence Editor](#)
- [Creating and managing 'Pages'](#)

Videos

- [Confluence in 60 seconds](#)
- [Confluence 101: Create Content with Pages](#)

In depth video on creating pages

 If you are interested in using Insights and would like consultation and training, please contact Tech Support at techsupport@ursinus.edu
