About us

The Enterprise Information teams supports our Colleague administrative system and other ancillary systems. Our goal is to provide a stable technology administrative ecosystem that provides data to key stakeholders and enables areas across campus to do their work efficiently and accurately. The team and I are passionate about supporting Library and IT as well as the college as whole, helping out wherever we can contribute to the advancement of Ursinus!

The team

Govindarajula, Mydhili mgovindarajula@ursinus.edu	
Sprague, Ruth rsprague@ursinus.edu	
Smith, Susan ssmith@ursinus.edu
